

10

THINGS

Sage 100 (MAS 90 & MAS 200)
**can do for your
business**

GO PAPERLESS

Go green. Automatically save registers and reports to PDF. Save on postage by emailing invoices and forms to your customers.

EMAIL NOTIFICATIONS

Monitor your database. Set up email alerts for various events and automatically schedule reports to be distributed via email.

SAGE CRM

Sell smarter. Manage critical customer information and build meaningful relationships with your customers.

BARCODE

Manage your inventory. Increase efficiency and prevent errors by using barcode scanners.

IMPORT AND EXPORT

Save time by importing data from Excel. Increase productivity by minimizing data entry.

EDI INTEGRATIONS

Transmit electronically. Use EDI Software to create ANSI transactions such as 940, 943, 944, 945, 946, 947, 997 & 856.

DOCUMENT MANAGEMENT

Easily view and access documents. Use Document Management Software to attach documents to invoices and sales orders.

CUSTOMIZE

Configure your screens. Easily personalize and create custom fields to show information that is important to your business.

CUSTOM REPORTS

Speed up your financial reporting. Create custom reports to reduce time spent manually compiling data.

AUTOMATE SALES TAX

Stay compliant. Automate your sales taxes with web-based sales tax management software.
