## **What's New 3**

### Custom Office 3

- Resizable Option for User-Defined Panels 3

- Object Positioning Options for Resized Windows 3

### Credit Card Processing 3

- Sage Payment Center 3

- New Visual Process Flow 4

- Security Settings 4

- Transfer Options for Vault-Only Accounts 4

### Fixed Assets 5

- Fixed Assets Options 5

- Asset Depreciation Report Task 5

- Asset Account Maintenance 5

- Other Relocated or Renamed Tasks 6

- Security Settings 6

## What's New

The following enhancements are included in Sage 100 2016.1.

### Custom Office

#### Resizable Option for User-Defined Panels

A Sizing field has been added to the Panel Header Definition window. The field is available when working with a user-defined panel and gives you the option to make the window resizable.

#### Object Positioning Options for Resized Windows

Two new fields, Resize and Anchored, have been added for several object types. You can use the Resize field to specify whether an object's position changes based on window resizing or if it remains fixed relative to the anchor point selected in the Anchored field.

The fields have been added to the Options tab in the following windows:

- Button Definition
- Check Box Definition
- Drop Box and List Box Definition
- Frame Definition
- External Link Definition
- Multi-Line Definition
- Radio Button Definition
- Text Definition

### Credit Card Processing

#### Sage Payment Center

If you use Sage Payment Solutions for credit card processing, you can now use Sage Payment Center for greater visibility into your payment transactions. Use Sage Payment Center to:

- View payment stats, including recent activity, weekly and monthly totals, and recent deposits
- Settle daily transactions

- View and export reports for transactions, batches, deposits, and merchant statements
- Search for transactions by customer name, last four digits of card number, order number, reference number, and other criteria

For more information, go to the Information Center page and click the Sage Payment Solutions link.

After you've set up the Payment Center, it can be accessed from the following locations:

- The ribbon on the standard Desktop or toolbar on the classic Desktop
- The Accounts Receivable and Sales Order Main menus
- The Invoice and Receive Payment visual process flow
- The Entry and Invoice visual process flow

## New Visual Process Flow

You can now access all of the tasks needed to set up credit card processing from one screen—the new Credit Card Setup visual process flow. Select the Visual Process Flows > Credit Card Processing > Credit Card Setup when you're ready to get started. Note that you must have access to the new process flow in Role Maintenance.

## Security Settings

The following security events have been added to Role Maintenance under Library Master:

- Allow User to Access Credit Card Processing Application Form gives access to the Sage Payment Solutions application form when it's accessed through the embedded Desktop browser.
- Allow User to Access Payment Center gives access to the Sage Payment Center.

## Transfer Options for Vault-Only Accounts

When turning on credit card processing in Company Maintenance, if you have credit card data stored in a Vault-only (nonprocessing) account, you are no longer required to immediately enter the virtual terminal ID and merchant key for your processing account. Instead you will have the option to enter the information later in Payment Type Maintenance.

## Fixed Assets

The Fixed Assets module, which links Sage 100 and Sage Fixed Assets, has been modernized to improve performance and provide a better user experience. Also, the module is now available for Sage 100 Premium in addition to Sage 100 Standard and Advanced.

### Fixed Assets Options

The Fixed Assets Options task has been moved to the Fixed Assets Main menu. Also the task has been reorganized and simplified.

- The Main tab has been simplified.
  - The Database Name & Path field has been replaced with a Database field. The system now detects the location of your Sage Fixed Assets databases.
  - The Company ID field has been renamed SFA Company and is now a drop-down list of available companies.
  - The Fixed Assets Product field has been removed.
  - The Post Registers in General Ledger in Detail field has been renamed Post to General Ledger in Detail.
- The Period Definition and Posting Books tabs have been combined into an Additional tab, and the information on the fields on those tabs have been replaced with data entry grids.

### Asset Depreciation Report Task

The following features have been added to the Asset Depreciation Report task window.

- You can now create report settings and save selections such as the number of copies to print.
- The Selection area has been replaced with a Selections grid.
- The Sort Options field has been renamed Sort Report By.

### Asset Account Maintenance

The fields on the Asset Account Maintenance window have been replaced with a data entry grid.

## Other Relocated or Renamed Tasks

- The Fixed Assets Daily Transaction Register task has been moved to the Fixed Assets Period End Processing menu.
- The Refresh Asset Templates task has been moved to the Fixed Assets Main menu.
- The Fixed Assets Maintenance task has been renamed Fixed Assets.

## Security Settings

The Fixed Assets security settings in Role Maintenance have been updated.
